

## Lead

Please take into consideration the following items before ordering glass:

- It is not possible to lead on Low E Glass
- It is not possible to lead on Activ Glass
- Please specify what size lead you want i.e. 6mm or 9mm
- If you wish to have a different colour lead than silver then specify i.e. Gold or Anique
- We cannot lead on both sides of most obscure glass. This is because the pattern in the glass doesn't allow the lead to stick correctly. The patterns in which we can lead both sides are listed below:

Chantily, Contoura, Orchid, Pelerine, Stippolyte, Sycamore
